Next steps & Enrichment opportunities

- Learning a language is a skill for life, regardless of whether you intend to pursue language learning at A level or beyond.
- There isn't a single subject or career pathway that is not enhanced by the knowledge of another language!
- Language learning can open up opportunities to work abroad.
- We live in a global society, with distance becoming less of a barrier to working with people from all over the world.
- We run trips to France and Germany so that students can experience the languages they are learning in the countries in which they are spoken - in the past we have taken trips to Cologne in Germany, Lille and Paris in France. We have also collaborated with the history department on trips to the battlefields in France and Belgium.
